

Actuarial Officer

Permanent contract

Our Finance Department is looking for an Actuarial Officer to support the Actuarial team. The overall mission is to participate in the evaluation of the Company's solvency coverage and technical provisions, to support reinsurance and underwriting activities, to run and develop actuarial models, to assist with profitability analysis and to support the Actuarial team on a diversity of tasks and improvement projects in the actuarial field.

Main tasks

- Carry out and provide actuarial reporting tasks including the evaluation and the control of technical provisions and deferred acquisitions costs, determination of solvency requirements (I and II), regulatory actuarial reporting, calculation and control of risk premiums and claims payment, the management of reinsurance premiums and recoveries.
- Contribute to the delivery of Solvency II requirements, including running of models (data, setting assumptions, runs), determination of SCRs, assist to fulfilment of Pillar III reporting and documentation of methods, assumptions and processes, and contribute to improving the actuarial projection tool.
- Support product development tasks including the profitability analysis, production of technical notes and testing of pricing.
- Contribute technically to development projects, including tasks automation, data quality and implementation of reporting requirements.
- Provide technical support to other company functions (underwriting, customers management, IT,...) and work on technical subjects with other Finance teams and actuarial teams from Apicil Group.

Profile

- Master degree in Actuarial Science.
- At least 1 to 3 years of professional experience in a life insurance company, actuarial consulting company
- Knowledge of Life Insurance and/or Finance industry
- Good communication and organizational skills
- Ability to analyse
- Capacity to take initiative and work with little guidance

- Attention to detail
- Reliability and accountability
- Team spirit
- Good knowledge of Microsoft Office Tools
- Knowledge of financial modelling software or programming language would be considered as a strong advantage
- Fluent in French and English (written & spoken)

OneLife. Several reasons

OneLife exists to overturn conventional attitudes to life assurance. As a specialist in this area with close to 30 years' experience, we develop cross-border financial planning solutions for wealthy clients across Europe.

Whether it's a question of long-term savings, inheritance planning or simply understanding how to better manage your wealth, we are dedicated to providing sophisticated, compliant and innovative solutions that are crafted to suit each individual and their evolving needs.

Together with a solid network of select partners – including private banks, family offices and independent financial advisers – our dynamic team of international experts offers a fresh approach that helps understand and anticipate the needs of wealthy clients in a world of change.

OneLife is a member of APICIL Group, the fourth largest social protection group in France, engaged in health and life insurance, pensions, savings products and related financial services.
